## ABOUT ME

Hey there! I'm John, a Full Stack Web Developer with a background in Electrical Engineering. After learning about the versatile and creative opportunities in the Web Development Sector, I decided to pursue a career as a Web Developer. After completing BrainStations Web Development program, I began this new career path at i-Sight Software, an Ottawa based company that operates remotely (I currently live in Alberta) and I am currently working here. I gained considerable real-world software developing experience, such as designing solutions in applications using JavaScript, working with several PSQl databases, accessing different deployment environments using Unix commands and much more!

## EXPERIENCE

### Software Application Developer | i-Sight Software

APR 2021 – CURRENT, OTTAWA, ON (REMOTE)

- Responsible for maintenance, alterations, bug fixes and more in several configurations of web application at the request of customers using Jira ticketing system
- Used JavaScript and Node Js to modify web applications, PSQl frequently to access and modify several databases and Git for source/version control
- Deployed updates to applications using Unix command line in environments such as Jenkins, Rogers, Azure and AWS
- Tested new features/additions in UAT environments then deployed to production

### Sales Associate | Virgin Mobile

JUN 2019 - AUG 2020, OTTAWA, ON

- Consulted with customers to find the right personal mobile device for their needs
- Demonstrated product and technology knowledge by researching devices and services in order to better sell the equipment

### Installer/Assistant | Fluent Home

MAY 2017- AUG 2018, CALGARY, AB

- Responsible for assisting with the installation of security cameras in residential homes and businesses
- Assisted in business record keeping and organization by creating spreadsheets
